Starion purchases all of its electric energy from the wholesale market. The above generation resource mix is based on PJM EIS reporting of regional generation sources. Starion Energy does not have access to information regarding the radioactive waste produced by nuclear generation in this region.

With in-depth analysis, the environmental characteristics of any form of electric generation will reveal benefits as well as costs. For further information, contact Starion Energy at www.starionenergy.com or by telephone at 800-600-3040.
